MOUNTAIN SAFETY

YOUR RESPONSIBILITY CODE Park City is committed to promoting skier/rider safety. In addition to people using traditional alpine ski equipment, you may be joined on the slopes by snowboarders, telemark skiers or cross-country skiers, skiers with disabilities, skiers with specialized equipment and others. Always show courtesy to others and be aware that there are elements of risk in skiing and snowboarding that common sense and personal awareness can help reduce. Know your ability level and stay within it. Observe "Your Responsibility Code" listed below and share with other skiers/riders the responsibility for a great skiing/riding experience.

1. Always stay in control. You must be able to stop or avoid other people or objects.
2. People ahead or downhill of you have the right-of-way. You must avoid them.
3. Stop only where you are visible from above and do not restrict traffic.
4. Look uphill and avoid others before starting downhill or entering a trail.
5. You are responsible to prevent runaway equipment.
6. Read and obey all signs, warnings, and hazard markings.
7. Keep off closed trails and out of closed areas.
8. You must know how and be able to load, ride, and unload lifts, safely. If you need assistance, ask the lift attendant.
9. Do not use lifts or terrain when impaired by alcohol or drugs.
10. If you are involved in a collision or incident, share your contact information with each other and a ski area employee.

UNMARKED OBSTACLES Be advised that all poles and/or flags, fencing, signage and padding on equipment or objects or other forms of marking devices are used by the ski area to inform you of the presence or location of a potential obstacle or hazard. These markers are no guarantee of your safety and will not protect you from injury. It is part of your responsibility under Your Responsibility Code to avoid all obstacles or hazards, including those that are so marked.

SKI SAFETY Under the law, any individual who engages in the sport of skiing/riding, alpine or nordic, or any person who is within the boundaries of a ski area for the purpose of observing any skiing activity, accepts and assumes the inherent risk of skiing insofar as they are reasonably obvious, expected or necessary.

WARNING Inherent risks of skiing/riding include, but are not limited to, those dangers or conditions which are an integral part of the sport, and can also include changing weather conditions, variation or steepness of terrain, snow or ice conditions, surface or subsurface conditions, whether man-modified or not, bare spots, creeks, gully, forest growth or rocks, stumps, lift towers and other structures and their components, collision with other skiers and a skier's failure to ski within the skier's own ability.

TRAIL DESIGNATIONS Skiers should be advised that a green circle, blue square, single or double black diamond, or orange oval at Park City is not necessarily the same as a similar designation at other resorts. The system is a relative system, valid only at this area, and skiers should work their way up, beginning with the easiest trails no matter what their ability level may be, until they are familiar with the trails at the area.

"PARK SMART" IN FREESTYLE TERRAIN

ELECTRONIC DEVICES Park City discourages the use of electronic devices – cell phones, music players, or earphones – while skiing and snowboarding, or loading and unloading lifts.

LIFT SAFETY Under the law, you cannot board a lift unless you have sufficient physical dexterity, ability and knowledge to safely negotiate and/or safely use such lift, or until you have asked for and received information sufficient to enable you to safely use the lift. You may not use a lift or any ski trail when under the influence of drugs or alcohol.

SNOWCATS AND SNOWMOBILES CAUTION - snowcats, snowmobiles and snowmaking activities and equipment may be encountered at any time.

SLOW ZONES Certain areas (indicated on the map in yellow) are designated as SLOW ZONES. Please observe the posted slow areas by maintaining a speed no faster than the general flow of traffic. Space and speed are especially important in these areas. Fast and aggressive skiing will not be tolerated and may result in termination of skiing/riding privileges.

HELMET USE Park City encourages our guests to wear a helmet. While helmets may mitigate or reduce the severity of some head injuries, their use does not guarantee safety and will not prevent all injuries. Park City reminds you that every winter sport participant shares responsibility for his or her own safety and for the safety of others using the ski area facilities.

AVALANCHE AND SNOW SAFETY Avalanches may occur both inside and outside of the developed ski area at any time. Avalanches are an inherent risk of the sport due to the nature of snow and its accumulation on steep, mountainous terrain. When skiing in deep, unconsolidated snow, beware of the risk of deep snow immersion accidents and/or suffocation, particularly around the base of trees. Always ski with a partner, stay aware and observe all posted signs and warnings.

BACKCOUNTRY WARNING The ski area abuts US Forest Service land and private land that are beyond the ski area boundary known as backcountry. The ski area assumes no responsibility for individuals who elect to go into the backcountry terrain beyond the ski area boundary. To access the backcountry, use designated gates only. Areas beyond the ski area boundary are not patrolled or maintained. Avalanches, unmarked obstacles and other natural hazards exist. BEWARE: the backcountry avalanche hazard may be extreme. Rescue in the backcountry, if available, is the responsibility of the County Sheriff. It will be costly and may take time.

HIGH-ALTITUDE ENVIRONMENT Some visitors may experience symptoms associated with Park City's high altitude. Symptoms may include headaches, nausea, loss of appetite, restless sleep, coughing and difficulty in breathing. If symptoms persist or if you have a concern about your health, you should seek medical attention.

PROTECT YOUR SKIING AND RIDING Your ticket or pass is non-transferable and may not be resold or used by anyone other than the person to whom it was issued. Report lost or stolen passes to resort staff or law enforcement immediately. Resort staff may ask you to show your pass or ticket at any time. Failure to show a valid pass or ticket or engaging in fraudulent behavior of any kind may result in loss of resort privileges and/or criminal prosecution.
